JAYBOTS JOURNAL

Team Updates

This year, we said goodbye to two seniors: Hailey Kim, and Matthew Glasser.

Hailey Kim was our **Vice President** last year**.** She managed our team´s scouting along with many other important responsibilities. She is currently studying **Biomolecular Enginneering,** enrolled at the **University of Pennsylvania,** with the goal of becoming an **anesthesiologist**.

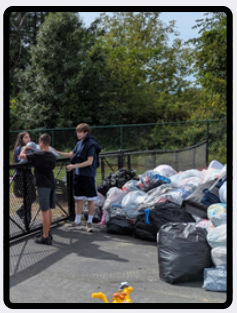

Matthew was our **President**. He led all our team responsibilities, making the year run smoothly. He is now studying **Mechanical Engineering** at **Georgia Tech** with the final goal of becoming a **mechanical engineer**.

Clothing Drive

Dutchess Country Fair

Recent Outreach

In addition to starting work on this season's robot, our team did a lot of **outreach in our community**. We reached out to **incoming freshmen** to build interest in our junior team, the **Phoenixes**. We gained **over 25 new members** from this event.

Additionally, we held a **Clothing Drive** to raise money for our club and help the community. We impacted many people at this event and successfully raised **over $400** for our club.

Furthermore, we did outreach during the **John Jay Open House**. At this event, we spoke with parents to **foster interest** in our robotics club and STEM in general.

During the Dutchess County Fair, our team **collaborated with the RoboRaiders** to help raise awareness about FIRST and robotics opportunities for those in our community. This event was a great success and impacted many people.

Upcoming Workshops

3D Printing & CAD Workshop (jaybots.org/cadworkhop) — **Oct 24 & Nov 24, 10AM-2PM**

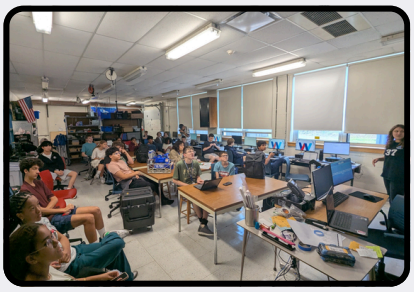

Cubscout STEM Workshop — **Feb 6, Time 9am-3pm**

2nd Annual Tech Merit Badge Day — **Dec 19, 9AM-3PM**

Closing Out...

We have a large amount of **Phoenix interest** for this upcoming year, and many ideas for **this year's game drop.** There are so many possibilities. For the first time we ran out of seats at our informational meeting! We're looking forward to the season and are ready for the challenges it will bring. We can't wait to see you at our upcoming events, and stay posted for our October Newsletter which will have more updates!

Message from Our President

This season has been all about pushing our limits, challenging ourselves, and making our ideas a reality. We can tell that this season will be a challenge but will push ourselves to match it. We are excited to see what we can accomplish together.
